

ADEAGBO EMMANUEL

FULL-STACK DEVELOPER

Lagos, Nigeria | 09060385239 | eadeagbo110@gmail.com

GitHub: github.com/Hevrex10 | **Portfolio:** adeagbo-emmanuel.vercel.app

Full-Stack Developer experienced in building responsive web applications and RESTful APIs using modern JavaScript technologies. Skilled in React, Next.js, TypeScript, Node.js, Express.js, MongoDB, and Mongoose, with hands-on experience developing authentication systems, e-commerce functionality, database-driven applications, and production-ready APIs. Strong focus on clean code, responsive user interfaces, maintainable architecture, and reliable application performance.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, GSAP

Backend: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose

Authentication & Security: JWT, HTTP Cookies, bcrypt

Tools & Platforms: Git, GitHub, Figma, Canva, Vercel, Netlify, Render

Development: Responsive Design, API Integration, Database Management, Deployment, Git Version Control

EXPERIENCE

FRONTEND DEVELOPER

Iterate Agency — Remote | July 2023 – Present

- Develop responsive and accessible web interfaces using modern frontend technologies.
- Translate design concepts and requirements into clean, reusable, and maintainable components.
- Build responsive layouts optimized for desktop, tablet, and mobile devices.
- Collaborate with team members to implement features and improve overall user experience.
- Maintain and refine existing interfaces while ensuring consistency across different pages and screen sizes.

PROJECT EXPERIENCE

REXcommerce — Full-Stack E-Commerce Application

Next.js · TypeScript · Node.js · Express.js · MongoDB · Mongoose · Tailwind CSS

- Developed a full-stack e-commerce application with a Next.js frontend and Node.js/Express backend.
- Designed and implemented RESTful APIs for users, products, carts, reviews, and orders.
- Implemented user authentication and protected API routes using JWT, HTTP-only cookies, and bcrypt.
- Built cart functionality supporting product quantities, sizes, colors, and variant-specific items.
- Developed order processing with stock validation, inventory updates, shipping information, and order status management.
- Implemented product filtering, sorting, pagination, product reviews, and related-product functionality.
- Designed MongoDB schemas and managed database operations using Mongoose.
- Deployed the application frontend and backend to production using Vercel and Render.
